PROLOG

Memperkenalkan hewan-hewan yang ada di Sabana luas dengan berbagai ciri khasnya masing-masing, dari hewan yang memiliki telur terbesar hingga hewan tersebar yang pernah ada.

Menampilkan sistem augmented reality untuk merasakan pengalaman yang berbeda.

BADAK
Rhinoceros

BURUNG UNTA

Ostrich

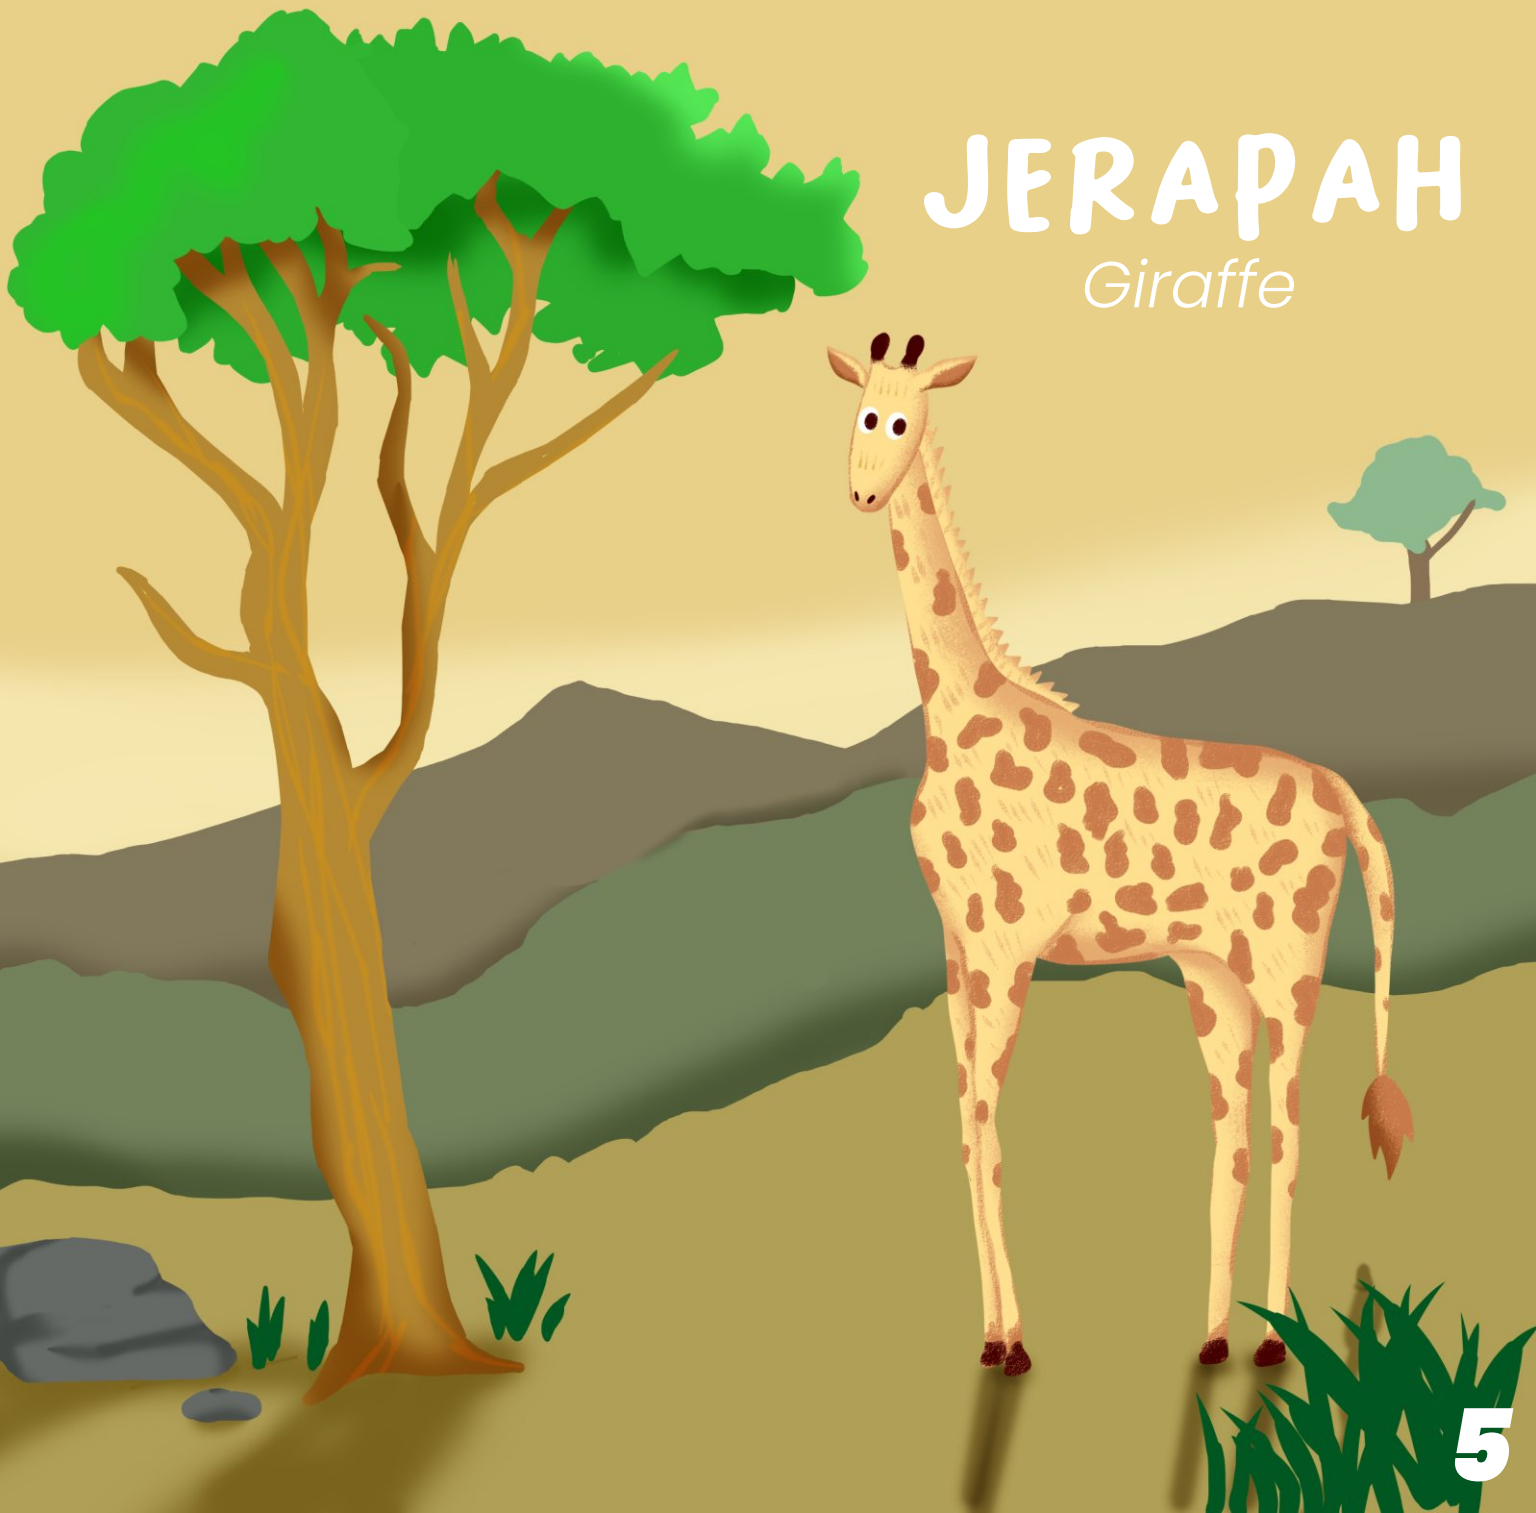

An illustration of an impala standing in a savanna landscape. The impala is brown with dark spots and long, dark, spiraling horns. It is facing left. In the background, there is a green bush with a brown, palm-like plant in front of it. The ground is green with some small green plants. A light blue pond is in the foreground. The sky is light blue with white clouds.

KUKANG

Lemur

An illustration of a pangolin with its characteristic brown and white scales, curled up on a large grey rock. The pangolin has a small white eye and a pointed snout. The background features a bright yellow sky with white clouds, green hills, and some green grass in the foreground.

TRENGGILING

Pangolin

An illustration of a Rusa Deer standing in a savanna landscape. The deer is brown with small white spots and has small, light-colored antlers. It is standing on a dark brown ground, with its reflection visible below. To the left of the deer is a large, dark green bush. In the background, there are rolling hills and mountains in shades of brown and green, under a light blue sky with a few white clouds. The text 'RUSA' is written in large, white, bold letters, and 'Deer' is written in smaller, white, italicized letters below it.
